Installation type:	ceiling mount
Lamp type:	LED

Expanding Kenall's new impenetrable series, the new **Mighty Mac HXSS** prevents unauthorized entry into, and weaponization of, correctional fixtures via a completely unique housing design.

Designed to keep staff and inmates safe, the luminaire's stainless steel, flat-lens construction deters tampering, requires no maintenance, and delivers appropriate footcandle levels using just one fixture per cell. Its ligature resistant, flat lens also makes it suitable for behavioral health settings.

The fixture's long LED lifetime ensures it will last for years, making it a "set-it-and-forget-it" solution from the leader in correctional lighting.

Also ideal for event centers, locker rooms, outdoor canopies & rail stations
