

NEW Luminaires provide safe, reliable lighting in Class 1, Div 2 Hazardous Locations

HSEDO Series

Kenall's new SimpleSeal™ HSEDO Series luminaire is a high-output, sealed, IP66-rated, overlapping door LED luminaire that is rated for use in the most common hazardous locations, where gases and liquid fuels are stored and/or used. Cool-running, low voltage LEDs paired with chemically-resistant gaskets provide a high level of safety, reliability and long service life in industrial spaces.

Product Features:

- Lumen range: 4,388 – 22,392
- Lumens per watt: 84 – 111 lm/w
- 60,000 to 80,000 hr LED lifetime (L70)
- Suitable for Hazardous locations rated Class 1, Division 2
- T6 Rated T-Code T6 for Cool Operation
- Groups A thru D for use with additional fuels
- High-output, high-CRI LED lamp sources for accurate color rendition and lighting performance
- Diffused high-efficiency lens for reduced glare
- Recessed ceiling mount; grid or flange - 1'x4', 2'x2', 2'x4'
- Integral emergency battery pack available

1'x4'

2'x2'
