

# Indigo-Clean MSDIC Series

Simple-to-Install Continuous Environmental Disinfection

The **NEW Indigo-Clean EX MSDIC13** is a safe, non-UV, visible light disinfection luminaire that can be surface-mounted anywhere, even over existing 6" recessed downlights. Controls are completely integrated, so no additional wiring or components are required.

Once installed, the MSDIC:

- Uses safe 405nm visible light rather than UV light
- Continuously disinfects and prevents regrowth of pathogens in both Indigo-only and blended white mode
- Does not harm people or degrade materials
- Kills 99% of SARS-CoV-2; also effective against other bacteria and viruses, including *Influenza-A\**, *staph\*\** such as *MRSA\*\*\** and *C. diff*

The MSDIC13 provides safe non-UV disinfection in waiting rooms, treatment rooms, school classrooms, health clubs, locker rooms, restrooms, and more. The new MSDIC also features Indigo-Clean's next generation light engine that provides spaces with truer white light and accurate color rendering.
