Here are a few facts about the present – and future – of the industry:

- **Currently**, cars in the United States stay parked 96 percent of the time.
- **1/3** of urban real estate is occupied by parking garages.
- The largest parking garage in the United States is the SeaTac Airport garage, which boasts 13,000 spaces. Rates start at $28 per day, (unless you have a coupon).
- Uber plans to deploy 100 “self-driving cars” in Pittsburgh, Pennsylvania by the end of this year. The first of that fleet hit the streets in August.
- … But cruising around looking for a space still increases traffic congestion by 25%!
