

## **Certificate of Compliance Buy American Act**

*December 1, 2010*

*To: Valued Customer*

*Re: Buy American Compliance*

*Kenall products manufactured in the USA meet the guidelines established under the Buy American Act and the North American Free Trade Agreement.*

*Where you see the American flag in our catalog and website, you can rest assured that the product shown is manufactured in the USA with components manufactured from US suppliers, and meets the Buy American requirements under the American Recovery and Reinvestment Act (ARRA).*

*The ARRA of 2009, refers that "domestic manufactured end product" requires manufacture in the United States, but does not include a requirement with regard to the origin of the components used to make the end product. As such, Kenall has not determined the origin of its domestically purchased components or the subcomponents thereof.*

*Kenall, since 1963, recognizes the value of community and being a good neighbor. It is for this reason we promote and support the American dream through employment, education, diversity, environmental health and safety, and community involvement.*

*When you choose Kenall, you are investing in America. At Kenall, we are proud to be an American company who manufactures quality American products at our manufacturing facility in Kenosha, Wisconsin.*

*For more information, contact your local Kenall representative at (800) 4-KENALL, or visit [www.kenall.com](http://www.kenall.com)*

*Thank you for your support.*

*Regards,*

*James Hawkins, President  
Kenall Manufacturing*

*Patrick Marry, President & COO  
Kenall Manufacturing*
